STEAMSHIP LIMITED

RAN OFF THE TRACK

C. N. R. Engineer and Fireman Scalded—
Implement Warehouse in Winnipeg Collapses.

Winnipeg, Man., July 17.—Yesterday morning the west bound steamship limited on the C. N. R., from Port Arthur to Winnipeg, ran into a mud bank between Nickle Lake and Rocky Mt. near Fort Francis, Ont. The engine and baggage car were derailed and Engineer Macy and Fireman Gorman, both of Rainy River were scalded. No passengers were injured.

As an aftermath of the storm of Friday night the large warehouse occupied by the Imperial Implement Co. collapsed last night; stock valued at \$150,000 is damaged to a serious extent. The building which was a frame structure on piles, was completely wrecked. It was stocked to the doors with farm machinery of all kinds, all of which was precipitated in a confused mass to the ground.

It was suggested that Sandison's hall could be secured as a place of meeting at an nominal fee. A committee consisting of C. E. Rose, Chester Barford and Geo. B. Cushing—At Edmonton on Saturday, July 15, to Mr. and Mrs. A. T. Cushing, a daughter.

SHOCKING ACCIDENT

MR. CHAS. SANDISON SEVERELY INJURED.

Caught on a Shaft in the Brick-Yard—
His Body Paralyzed—Recovery is Considered Doubtful.

A shocking accident occurred this morning at Mr. Charles Sandison's brick yard. Mr. Sandison was crossing a revolving shaft, used for hauling the clay from the pit, when his clothes were caught by the shaft and he was thrown violently against it. His clothes were torn to pieces and his body was pounded round the shaft in a terrible manner before the machinery could be stopped.

The unfortunate man was taken to the general hospital, and Drs. McInnes and Braithwaite were called in. It was found that his left shoulder was broken and his neck injured, but the most serious result is that his entire body from his shoulders down is paralyzed. It is difficult for the doctors to say yet as to his chances for recovery, but he is at present in a very precarious condition. He is entirely conscious, and his head seems to have escaped injury.

Mr. Sandison is one of the oldest residents of the city and is held in high esteem by his many friends, and expressions of surprise and regret at his great misfortune were heard on every side when the news of the accident became known.

SUCCESSFUL PIC-NIC.

Pembina, July 9.—The first picnic held here was well attended and a pleasant day was spent, despite a few accidents. Two teams ran away, one snatching into J. Johnston's refreshment stand. A party of ladies and gentlemen upset from a boat. Mr. Wales sprained an ankle in the football game and L. C. Ward had an arm injured in trying to stop one of the runaway teams. Nine loads of land seekers from the Indian Territory heading for the Athabasca, stopped to take in the picnic.

THE TORONTO NEWS AND ITS POLITICAL PROGRAM

Some years since, with the waning of journalistic banners, and the blare of editorial tenacity, the conversion was announced of one of the Toronto daily papers from the night and error of partisanship to the light and liberty of unbiased and untrammelled independence. One of the Queen City millionaires, we were told, had decided to devote his wealth or a sufficient portion of it, to the publication of a thoroughly independent newspaper. This model publication, which was to be under the editorial control of one of the foremost journalists of Canada, was to be absolutely free from political affiliation and corporate influence, would deal fairly and fearlessly with all manner of men and movements, and rock not the rise and fall of personalities or powers in its warfare for the truth. For the rest it was to be a "journal devoted to politics, education, literature, the presentation of current news and the diffusion of useful information."

For a time the rejuvenated "News" was conducted on a policy more or less at variance with the views and aims of everybody, but as time passed it began to be apparent that whatever sympathy of view it had with the Federal Government, was diminishing rapidly to the vanishing point and that the questions upon which it opposed the Government were multiplying with a corresponding rapidity. The natural and necessary goal of this career was reached some time since and for many months Liberals have recognized in the Toronto News an out-and-out opponent of the Government.

And it appears that not alone did Liberals note the change. The Mail and Empire, which, by reason of age and established status had come to regard itself as about the only important character among Ontario opposition organs, viewed with anything but complaisance the advent of this stranger whose zealous disposition and broadening circle of readers made him a quite probable candidate for the party laurels. Instead of retreating, like the Montreal Gazette, to the dignified impotence of a journalistic senescence, the Mail and Empire resolved on the exercise of vigor, valence if necessary, to maintain its position in the van. Its assaults on the Government have taken an unrelenting violence and a vulgarity of expression which shows the desperate straits in which the veteran is laboring.

It now appears that the ambition of the "News" does not stop with the deposition of the Mail and Empire. It would have other worlds to conquer, would aspire to nothing less than the position of organ-in-chief of the English speaking opponents of the Government throughout the Dominion. Whatever honor has attached to that position in the past has fallen to the lot of the Montreal Daily Star. To that journal the "News" accordingly now directs its attention in a manner calculated to shake the foundations of Conservative faith in the value of the Star as a campaign winner.

The attack of the News is contained in an article published as "Special Correspondence of the News," dated from Montreal on June 8. The letter is published in the "News" on July 8 under the following heading in huge black letters which span an entire page:

"WHAT OF QUEBEC?"

"Is there any possibility of that Province returning to Conservative leanings? Not until Laurier disappears from the scene; and then it 'all depends.'—Results of an investigation into the Political Situation.—The Problem which the Conservative party must solve before it can succeed in Quebec.—Proposal for a Dominion Convention in Montreal to consider the Whole Situation?"

This article, it is fair to say, is written in an entirely sympathetic vein and is exactly such as would be expected in an avowed Conservative organ seeking to reveal to the party the secret of its non-success in Quebec and hence in a measure in the entire Dominion.

For the consideration of Conservatives who have followed the lead of the Star, the News says:

NO ONE FACTOR HAS MADE MORE TO DO WITH THE MISFORTUNES OF THE CONSERVATIVE PARTY IN QUEBEC THAN THE CIRCUMSTANCE THAT THERE HAS BEEN A POPULAR BELIEF THAT ITS POLICY AND CAMPAIGN HAVE BEEN DIRECTED FROM THE OFFICE OF THE MONTREAL STAR. It is a curious fact that the Star, although one of the most enterprising newspapers in the Dominion, and undoubtedly of tremendous influence as a business proposition, IS A COMPLETE FAILURE AS A POLITICAL ORGAN. People buy it and read it as a newspaper, but when it comes to politics, then the majority of them turn around and vote just contrary to the way the Star tells them to do. That has been its history for years; it was so in the famous bye-election in Stanstead, in which Mr. Hugh Graham did his utmost to defeat M. E. Hackett when he went back for re-election after appointment to the Provincial Ministry; it has been so ever since. This peculiarity is impossible to explain, so far as the English-speaking people are concerned, but it exists all the same. With the French-Canadians it is not so much of a problem. There has always been intense competition between the Star and La Presse, and since the latter (undoubtedly the greatest French newspaper in America) has passed its English rival in circulation and influence, the rivalry has become more intense. When, therefore, Sir Charles Tupper in 1900 CHOSE AS HIS ORGANIZER THE EDITOR OF THE STAR, A FEELING OF INDIGNATION, which was quite natural under the circumstances, became apparent among the French-Canadians that the destinies of the Conservative party in a French province should have been entrusted to an English-speaking man. On top of this came the anger aroused by the BITTER CAMPAIGN WHICH THE STAR CARRIED ON AGAINST SIR WILFRID LAURIER over the sending of the contingents to South Africa; the putting out of TWO SETS OF CAMPAIGN LITERATURE, one for English and the other for French consumption; the incidents in which the Loyal students were represented (in an issue of the Star intended for country circulation only) as stamping on and burning the British flag, and many other things of the same kind.

What more reasonable conclusion could a Conservative party leader be supposed to draw from this than that of the necessity of supplanting the Star as English-speaking organ-in-chief by some journal published under circumstances which do not permit it being a rival of La Presse? But the News man is not sparing with advice or compliments. He takes up the question of party organization and does not make it clear that he would retain Mr. Borden as commander-in-chief.

While no attack is made on Mr. Borden no eulogies are pronounced upon him, and the honorable gentleman is handed the following text for some earnest reflection:

"The practical effacement of the Conservative party at the general elections in 1900 and 1904 by the Liberals under Laurier was enough to give the Conservative party cause to pause and ask: 'Whither are we drifting?' But the COMPLETE ORBITERATION OF THE SMALL CONTINGENT SENT TO THE HOUSE OF COMMONS TO SUPPORT MR. BORDEN, owing to the racial division caused by the introduction of the Autonomy bills, has been the last straw and Conservatives all over the country, as well as a good many Liberals, are asking themselves, 'What is to be the future of the Conservative party?' It is true that the party position, so far as Quebec is concerned, is no worse than it is in Nova Scotia.

In what form of words could an openly Conservative paper advise Mr. Borden that his lack of settled policy on the autonomy bills had invited defeat or that his leadership in Nova Scotia had signally failed?

For the edification of the Montreal Conservative organization the correspondent says:

But it may be asked why, if that was the case, was Mr. Borden defeated in Halifax in November last? The result was due, not so much

to a weakening of the principles of the Conservatives of Nova Scotia as to the fact that they had no money and were not allowed to share in the contributions which were sent out from the head centre of the party in Montreal. The writer is apparently after that Star editor who managed the Quebec program.

The News correspondent would change the Quebec leadership. He says:

Of course much depends upon the leaders of the future. Today the Conservative party of Quebec may be said to be leaderless. Even among the stalwarts of the party there is no confidence in either Monk or Berperon. The former's English name is against him; the latter is a jolly good fellow, but is not regarded even by the most ignorant of the habitants, as other than a bon garcon, a good fellow to make you laugh when he is on the stump, but nothing more. Tallion is out of politics; Angers has also turned his attention from politics to law; and in any case both are too old to enchain the imagination of the rising generation. There is no man in the House of Commons from Quebec on the Conservative side today who can be said to have the power to impress himself upon the people.

Therefore, if Conservatism in Quebec is ever to amount to anything again Mr. Monk must disappear from the sub-leadership. A new man would win the confidence of the English section of the party, a thing which Mr. Monk no longer possesses; and as a factor with the French he is out of the running.

The correspondent concludes with the proposal to call a convention of the whole party to meet in Montreal, asserts that the French-Canadians are protectionists, and holds out the hope that the influence of the Church might be favorable to Conservatism. He is quite in the blues when he confesses that the case is hopeless while Sir Wilfrid Laurier is at the helm.

Enough has been quoted to outline the somewhat comprehensive plan which the News has in mind: to secure the complete readjustment of the Federal Opposition forces with its respected self as head of the journalistic brigade.

THE NEWS OF THE DAY

IN CONDENSED DESPATCHES

Brief items from many sources tell the story of the day's events.

SUBMARINE RECOVERED.

Alberta, Tunc, July 17.—The French submarine boat "Farfadet" has been towed into dock after ten days' incessant efforts to raise her. The salvage operations were conducted by two admirals, 250 sailors and a big staff of engineers. The stench from the decomposing bodies of the fourteen miserable occupants is dreadful and the fatal ship cannot be entered to take out the bodies until it is decomposed.

MACHINE SHOP BURNED.

Minnedosa, July 17.—The machine shop of C. H. Charleson, was completely destroyed by fire Sunday night. Loss \$6,000, partially covered by insurance.

SIX WOUNDED.

Lodz, July 17.—Six were wounded by a volley fired by Cassacks into a crowd here.

CHAPEL ROOF COLLAPSED.

Pernice, Italy, July 17.—The roof of the women's hospital chapel fell killing 16 women and injuring 32.

BALL GAMES.

Winnipeg, July 17.—Saturday's scores: Crookston 6, Winnipeg 2; Superior 5, Fargo 3; Grand Forks 8, Duluth 6; Fargo 9, Superior 6; Duluth 5, Grand Forks 2.

RECONOITERING VLADIVOSTOK.

Nikolskoe, Asiatic Russia, July 17.—Japanese torpedo boats are reconnoitering near Vladivostok with a view of ascertaining favorable bays for landing troops for a siege. They have examined the wrecked Russian cruiser Emerald and find she is a total loss and cannot be recovered.

SANKEY'S BODY FOUND.

Kenora, July 17.—The body of Mayor Sankey drowned near here last Monday, has been recovered.

CHAMPIONS OF MANITOBA.

Winnipeg, July 17.—The Winnipeggers are again champions of Manitoba cricketers by virtue of their victory over Belmont, their fifth consecutive win of a week's play.

CANADA'S LARGEST CITY.

Montreal, July 17.—Official figures published show that Montreal's population has passed the three hundred thousand mark, the count being 310,000.

BIRCH LAKE ITEMS.

Gilpin, July 16, 1965.—One of the most popular outings in the Vermilion Valley this season was the picnic on the farm of Mr. Geo. Dodge, one mile from Gilpin on July 14th. The morning threatened rain but the sun came out bright and a more pleasant day for a picnic could not be desired. About eleven o'clock people began to come in from all directions with loaded baskets and smiling faces, seemingly bound to have a good time. The table cloth was spread on the green by the ladies in real old picnic style. A glance at the table would make one think he was near the Niagara Valley or Fruitland, California. The newly organized 49 foot ball club in charge of Billy McDonald, played several games during the afternoon and quite a number of the boys enjoyed themselves playing base ball.

Mr. Lawrence, teacher at Vegreville, was on hand to see that the children enjoyed themselves. He was busy all afternoon at the swing.

Several games were heartily enjoyed by old and young during the early part of the afternoon. About 5 o'clock with Mr. Emery as chairman, the following program was disposed of:

1st Instrumental duet by Miss Beghen and Mr. Ryan.

2nd Recitation by Miss Edna Solomon.

3rd A duet by the Misses Dolja and Mestie Haggart.

4th A recitation by Miss Mary Elise.

5th A short address by Mr. J. A. McNeagall on the future of our country. He after giving a hearty wish to the wealth and advantages of our province from the Atlantic to the Pacific, said Alberta with her fertile soil and healthy climate was one of the finest countries on the North American continent.

6th Miss Ardley and Miss Haggart sang, "My Country 'Tis of Thee".

7th Rev. Mr. Haggart gave a short speech in which he extolled the Birch Lake district.

8th Mrs. Gilpin fairly convulsed the audience by her rendition of "The Daisy and the Bell".

9th Violin and banjo selections by Mr. Billy McDonald and Vernon Gilpin.

Lover Brothers Limited, Toronto

10th Song "Hearts of Oak" by Mr. W. Wright.

The sun was setting before the last of the company began to take their several ways home. All seemed delighted with the first picnic at Gilpin.

Mr. Ed. Robertson of Vegreville was in the neighborhood playing farm machinery for a few days.

We had a thunder storm on Sunday 9th and rain on Monday afternoon. All crops are looking fine.

The selection of tobacco takes time and great care—the conditions of its growth, the soil, the planting, and the cultivation, must all be considered.

I have studied tobacco from the seed to the cigar. I have a thorough knowledge of the qualities grown on the different plantations in the Manicragua district of Cuba, where the best tobaccos are produced. It is from the best of these plantations that I buy the filler of my

Pharach Cigar.

I was the first manufacturer in Canada to use Manicragua tobacco. It proved such a winner that the tobacco agents in New York sell thousands of miles of the district.

I visit these plantations every season, and personally select the tobaccos I particular in the selection of my tobacco. I would rather be thought a crank than jeopardize the quality of my Pharach cigar.

I know that every time you smoke a Pharach cigar you will thank me for being a tobacco crank—that is full recompense for my trouble and care.

LOCALS

—Lacrosse practice tonight.

—One drunk, a Dane named Chas. Learke, was the only occupant of the police court this morning.

—When the new C. N. R. station is built, Revillon Bros. purpose erecting a six-story warehouse north of the depot. Their lot is 142 by 150 feet and they will erect the building in sections as required until the entire lot is built upon.

—Sergeant Hetherington, of the N. W. M. P., Calgary, came up on Saturday evening and returned this morning, taking Mary McCauley, who was recently arrested here, with him to stand her trial on several charges of theft. "We want her and want her badly," were the words sent up with the request to arrest her the other day.

—Colin Johnston, of Wabasca, has a fine collection of furs in Revillon Brothers' warehouse. Among the collection are seven silver and one black fox skins. The black one is a beauty and in every way a perfect skin. It is the only black fox brought out this year. The lot will probably bring a handsome figure. He has as well, a good collection of mink, otter and beaver.

—Mr. M. McNell, of Lavoie, is in the city on business. He says there is a good deal of activity along the line of the C. N. R. Grading is progressing very rapidly and he feels certain that the whole line into Edmonton will be graded some time in September. He has great hopes for the future of Lavoie, as it is situated in an excellent farming country, about half way between this city and Lloydminster.

The Cream Separator that is the Cheapest in the End.

There are some folks who are everlastingly trying to get "something for nothing." They buy a wagon at a "bargain" price because the agent says it's "just as good." And then, after a few months, when the tires and spokes have all loosened up, they cuss the wagon.

Price not the only Difference.

It's the same way with cream separators. You can buy many other separators for less money than the U. S. Cream Separator sells for, but before you've finished paying for the experiment you'll find price isn't the only difference. The cheaper separators soon get out of adjustment because built of cheaper material by inferior manufacturing methods; they consume twice the necessary amount of oil; they have a bowl that will not run true, and does not skim clean. The repairs in the first few years would pay the difference for the U. S. Cream Separator.

Durability is Important.

The U. S. Cream Separator has stood the test of time. Many of them have been in use for 10 years, and cost less than a dollar for repairs. They run easy, skim cleaner than others, have a simple bowl, enclosed gears, and a convenient low supply can.

The Vermont Farm Machine Co., of Bellows Falls, Vt., have printed in a handsome booklet a few of the thousands of letters from satisfied users of the U. S. Cream Separator. This booklet will save you money when you buy a separator, and a post card will bring it to you.

To insure prompt deliveries and to save freight charges for their Canadian customers, they ship from their warehouses at Montreal, Sherbrooke, Hamilton, Winnipeg, Calgary and Vancouver, but all letters should be addressed to Bellows Falls, Vt.

LOCAL

—Manager Nunn of the Imperial Bank Strathcona left on Tuesday morning for Calgary to relieve Manager Morris of the bank's branch there who is taking a much needed vacation on account of ill health. During Mr. Nunn's absence Accountant H. W. Sapich of the Edmonton branch will take charge in Strathcona. Accountant J. R. Benson takes his place in Edmonton and Accountant Spoken from Trout Lake will take Mr. Benson's place in Strathcona.

—A correspondent writing from Star says: The right-of-way men are clearing off the railway route west of Rob Smith's. We will soon have the whistle of the "iron horse," and what a change it will make in this "lone-lane! Farmers are thankful and thankful that it will be so. The long, hard pull and the way to Edmonton will have passed away forever, and it is said "one" station is to be on Sam Culbert's property about half a mile from Beaver Creek. The next station west may be on H. B. Co's section 26, range 26. People surmise that the railway won't hurt Star to any great extent.

—Elliott Herald: J. S. Fraser, of Strathcona, was in town a couple of days this week in connection with the erection of an elevator. But for a slight misunderstanding with the railway company, work would have commenced right away, but as it is building operations will be gone on with in the course of a day or two. The elevator is to be erected 350 south of the water tank, of 30,000 bushel capacity, with all necessary appliances. Mr. Fraser is to employ a number of men and expects to have the work finished in about a month after commencement. The lumber has been bought locally, and the machinery will be here in a few days.

—Moose Jaw Signal: A party of eleven surveyors arrived in the city on Sunday evening and commenced operations on Monday afternoon on the line for the new road which it is proposed to build from here to the Elbow of the Saskatchewan river. The party is in charge of Mr. J. McCrory, who has for the past twenty years been connected with this department of the C. P. R. A primary survey will be made by the party in reaching the Elbow, and on the return journey the correct proposed line with gradients will be determined. The surveying party expect to be able to accomplish about ten miles a day.

—Herald: If Charles Davey is charged with any offence at the exhibition, there continues to be nothing at the police court to show it. It develops that Davey handed a cheque for \$250 to the exhibition authorities one day before the exhibition opened. This was one-half payment for the "ground" privilege. The balance was handed to Assistant Manager Richardson in cash by Davey on Monday afternoon. The cheque was on an Edmonton bank. James Smart, chief of the fire department, handed to Manager Peterson Davey's application for the ground privilege. This was something like a week before the fair opened, and before Norman Jackson had gone to Edmonton to have the privileges bid on. When the privileges were finally sold, Davey got it for \$100 advance on the first offer.

—Landscape Advertiser: A heavy hail storm passed through this district last Sunday evening doing much damage in places. It appears to have started near the foot hills crossing the Kansas Ridge settlement and travelling in a southerly direction. Lacombe was in the northern edge of it and many windows were broken in the town, but little damage done otherwise. The hail appears to have been heaviest between this place and Morningside, where a number of farmers had their crops badly damaged. A. Briggs being probably the heaviest loss in the path of the storm. Mr. Briggs was in town Monday after winter wheat seed and will immediately sow it and to wheat for next year's crop. This is the worst hail storm ever known in this district. Ever since the beginning of history the best agricultural districts of the world have been more or less subject to hail storms and sunny Alberta is not in this respect different from the rest of the world though she possesses many advantages in other lines.

News in Brief

Negotiations between the leaders of the two parties have been in progress some days. The feeling is that the premier should be paid \$15,000 a year, the leader of the Opposition \$5,000, and cabinet ministers \$10,000. The seasonal indemnity \$2,500. Arrangements will be made for pensions for ex-cabinet ministers.

Sixty-seven indictments against 25 individuals, most of whom are former county officials, were handed down by the Milwaukee, Wis. county grand jury in the municipal courts. This batch of true bills added to the thirty-eight returned yesterday, makes a total of 105 thus far, with the expectation that further probing will result in many more indictments being brought later. The list contains twenty out of the twenty-one names returned in the last batch, there being but five names not before reported. Nearly all the indictments charge bribery, the amounts, it is alleged, having been paid to present or former county officials in connection with the awarding of the county contracts for the erection of an ad-yeans ago.

Dr. M. Paris, who was surgeon of the Russian hospital ship Orel, attached to the fleet under the command of Admiral Rojestvensky during the naval battle of the Sea of Japan, has arrived at San Francisco on his way to France. He is a Frenchman, and with many surgeons of the nationality, joined the Orel at Toulon as a delegate from the French Red Cross society. As an eyewitness of the battle, Dr. Paris saw the battleship Borodino and many others of the Russian fleet sink. He was within a mile of the Borodino when she began to career and fall. "At this time," he said, in the course of an interview, "her guns were firing, and I could see that many shells she fired were going skyward or into the water beside her. But every Japanese shell, it seemed went straight into the vitals of the Borodino. Then came a heavy listing of the big battleship, and then a tremendous plunge as she went down by the head, with hundreds of men aboard her. Dr. Paris says that Admiral Rojestvensky and his officers never seemed to fear death at the hands of the Japanese, although the ships were very foul after the long cruise in tropical waters.

AND WHEREAS every by-law for the acquiring, building, carrying on, constructing, leasing, extending, maintaining, managing or operating and acquiring sufficient land for the convenient carrying of, amongst other things, hospitals, shall before the final passing thereof receive the assent of a majority of the burgesses voting thereon in accordance with the provisions of Title XXIV.

AND WHEREAS it is expedient that this by-law should take effect on the day of the final passing thereof;

NOW THEREFORE the Council of the City of Edmonton duly assembled enacts as follows:

1 The Mayor and Secretary-Treasurer of the City of Edmonton are hereby authorized and empowered to borrow for the purposes aforesaid, in the name and on behalf of the City a sum of money not exceeding in the aggregate the sum of \$35,000.00 and to issue one or more debentures of the City for such sum or sums so borrowed.

2 The said indebtedness shall be paid and the said debentures shall be made payable during a period of ten years from the date of the issue of such debentures or debentures and shall bear interest at a rate not exceeding five per cent. per annum, and shall, as the Council shall deem expedient, be repayable either (1) in such manner that each instalment of principal and interest shall be equal in each year of the said period of ten years, or (2) in such manner that the principal shall be paid at the end of the said period of ten years (an equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon annually or semi-annually;

4 This By-Law shall take effect on the final passing thereof.
